[Size] W670x H540 x D203 (mm)

[Window size] W300x H150 (mm)

[Specification] panel×1, stand×4

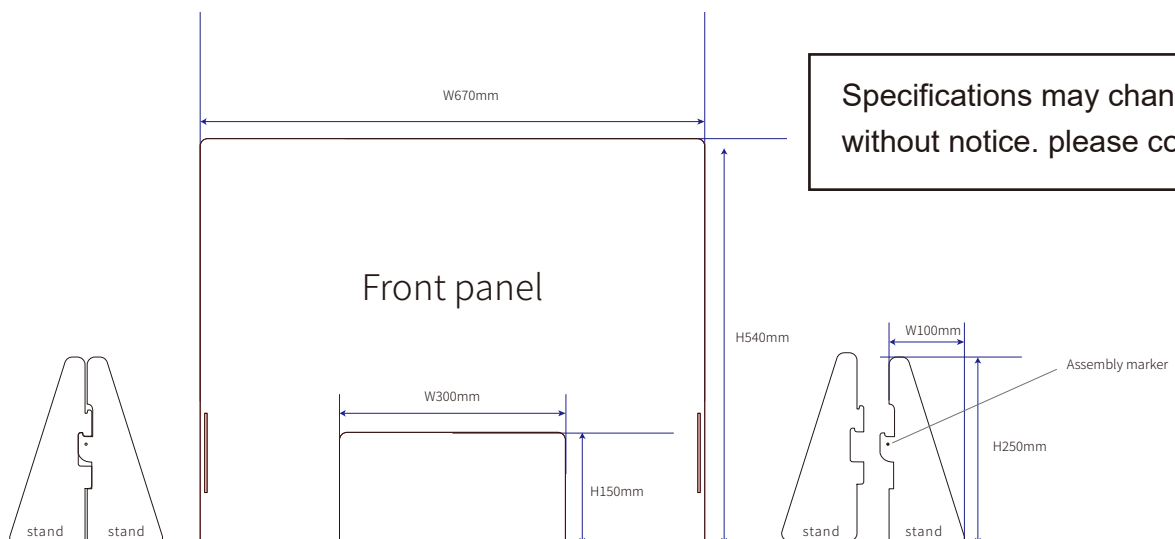

[Color] Transparent

"Cachiiina horizontal type" is an acrylic partition. All parts are made of acrylic. No metal parts are used. No adhesive is used for assembly, so you can freely disassemble and assemble.

Acrylic partition, which has higher transparency than glass, does not feel pressure in living space. You can prevent splashes from hitting your face as much as possible.

Thread chamfering on the outer surface has been considered for a gentle touch and safety. Also, using acrylic for the stand part maintains the high transparency and does not hinder the visibility.
